Design Tools: Figma, Adobe Illustrator, Adobe InDesign
Front-End: HTML5, CSS3, Tailwind CSS, JavaScript, TypeScript, React, Next.js
AI Tools: Claude, ChatGPT, Lovable, Figma AI, Google Stitch
Soft Skills: Time Management, Leadership, Creative Thinking, Communication

WORK EXPERIENCE

UI/UX & Graphic Designer — Jul 2025 – Jul 2026
Your Office Partners — Remote

- Led the UI/UX design of a ship chartering SaaS web dashboard for UAE-based clients, simplifying navigation and information architecture to make the product easier to use.
- Delivered end-to-end product design for an HR software mobile application, from concept and wireframes to high-fidelity UI and developer handoff.
- Redesigned the Your Office HR services dashboard for internal teams and external business clients, improving overall user experience by 50%.
- Managed the marketing team for 6 months, coordinating branding and preparing assets for digital and print.
- Designed and developed a real estate website using React and JavaScript, applying technical SEO best practices to achieve a 97/100 SEO score.
- Improved the UI/UX and SEO of the company website and published 2 new blog posts per week.
- Mentored a new intern on a landing page for HR services, reviewing mockups and guiding design decisions.
- Produced regular social media creatives for all platforms, along with brochures, business cards, and other print collateral, keeping the visual style consistent with the brand.

UI/UX Designer — Feb 2024 – Jan 2025
NGEN LABS — Chennai, India

- Handled the UI/UX design of a vendor management web application in Figma, creating simple vendor-tracking user flows for a non-technical audience.
- Modernized the website of an oil and gas services company, restructuring a cluttered interface into an organized layout with a clear visual hierarchy.
- Designed a new internal dashboard for a Fintech banking web application, presenting key information in an easy-to-navigate format.

- Created a clean, minimal user interface for a multi-page charity organization website.

Freelance UI/UX & Graphic Designer Dec 2022 – Nov 2023
Self-Employed Remote

- Launched a website for a Singapore-based university's AI event program within a tight 2-day deadline.
- Refined logo designs for startup clients in different industries, improving typography and color palettes for stronger brand identities.

EDUCATION

Bachelor of Computer Science and Engineering 2019 – 2022
Aalim Muhammed Salegh College of Engineering Chennai, India
