PROFESSIONAL SUMMARY

UI/UX Designer and Graphic Designer with 2+ years of experience designing B2B web and mobile apps, SaaS dashboards, and landing pages for Fintech, HR, and E-Commerce products. Works across the full process in Figma, from user research, user flows, and wireframes to high-fidelity UI, prototyping, and developer handoff. Builds working front-end interfaces in React and Next.js with AI-assisted development, and creates social media and print designs.

WORK EXPERIENCE

UI/UX & Graphic Designer **Jul 2025 – Jul 2026**

Your Office Partners | Remote

- Redesigned the Your Office HR services dashboard for internal teams and external business clients, improving usability and making key information easier to find.
- Delivered end-to-end product design for an HR software platform across web and mobile, from concept and wireframes to high-fidelity UI and developer handoff, completing 100+ screens ahead of schedule.
- Led the UI/UX design of a ship-chartering SaaS web dashboard for UAE-based clients, simplifying navigation and information architecture to make the product easier to use.
- Designed and built a real estate website in React and JavaScript with AI-assisted development, applying technical SEO best practices to reach a 97/100 SEO score.
- Improved the UI/UX and SEO of the company website.
- Mentored a new intern on a landing page for HR services, reviewing mockups and guiding design decisions.
- Produced regular social media creatives for all platforms, along with brochures, business cards, and other print collateral, keeping the visual style consistent with the brand.

UI/UX Designer **Feb 2024 – Jan 2025**

NGEN LABS | Chennai, India

- Handled the UI/UX design of a vendor management web application in Figma, creating simple vendor-tracking user flows for a non-technical audience.
- Ran usability tests on interactive Figma prototypes to find pain points and refined designs from user feedback.
- Modernized the website of an oil and gas services company, restructuring a cluttered interface into an organized layout with a clear visual hierarchy.
- Designed a new internal dashboard for a Fintech banking web app, presenting key information clearly.

Freelance UI/UX & Graphic Designer **Dec 2022 – Nov 2023**

Self-Employed | Remote

- Launched a website for a Singapore-based university's AI event program on a tight 2-day deadline.
- Designed and refined logos for startup clients across different industries, improving typography and color palettes to strengthen brand identity.

EDUCATION

Bachelor of Engineering (B.E.), Computer Science and Engineering **2019 – 2022**

Aalim Muhammed Salegh College of Engineering | Chennai, India
